

A modern living room with a dark grey wall. On the left, a red door with a silver handle is slightly ajar. To its right is a tall green plant in a white pot. In the center, a blue sofa is adorned with teal and patterned cushions and a grey blanket. In front of the sofa is a black metal coffee table with a glass top, holding books and a golden vase. The wall behind the sofa is decorated with several framed pictures and a light fixture.

Porte blindate con rivestimenti di stile.

Associare la sicurezza al design, ai gusti personali, agli stili di vita e realizzare prodotti capaci di inserirsi nei più svariati contesti abitativi è diventato il nostro obiettivo. Tantissime sono le soluzioni che proponiamo per rivestire le vostre porte: pannelli bugnati in alluminio, pantografati in okumè, lisci o renolit fino ai pregiati pannelli in legno massello e ai prodotti di design della linea futura. Forme moderne e raffinate, essenza pregiate, trame e colori, giochi di luce ed ombre che faranno della vostra porta un importante elemento d'arredo.

Pannelli bugnati in alluminio

I pannelli bugnati in alluminio possono essere utilizzati in luoghi esposti a condizioni climatiche diverse, non richiedono manutenzione e garantiscono la tenuta nel tempo. Realizzabili in tantissimi modelli e colori consentono un armonico inserimento in ambienti classici e moderni.

Pannelli pantografati

La linea dei pannelli pantografati è realizzata con pannelli multistrato di Okoumè (14 mm) per le tinte legno, perché materiale più adatto per la verniciatura, o in MDF (14 mm) per la laccatura.

I pannelli in Okoumè, costruiti con fibre parallele incrociate tra di loro, resistono meglio alle variazioni climatiche; questo ne consente l'installazione all'esterno, ma in zone riparate.
